Neopost to Debut Mailing Systems at National Postal Forum in Washington DC

Visit Neopost at NPF to Preview These Exciting New Products

Neopost, the worldwide provider of mailing, addressing, document handling and mail management systems, will unveil several new product offerings at the National Postal Forum in Washington DC, on September 19 – 21, 2004. These latest systems are designed to allow businesses of all sizes to benefit from the newest mail technology.

For mailrooms requiring big capability in a small space, Neopost introduces the SI 82. A mid to high-volume folder/inserter, the SI 82 can handle up to 80,000 envelopes per month at a rate of 4,300 per hour. With a comprehensive range of advanced features, Neopost's SI 82 delivers a superior combination of ease-of-use, speed and flexibility.

For offices with varying mailing needs, Neopost debuts the IJ 40, IJ 50 and IJ 60 mailing machines. Designed with the flexibility to handle day-to-day office operations, the IJ 40, IJ 50 and IJ 60 mailing machines allow for expanded departmental accounting abilities, differential weighing, and Internet-based features and services.

Other Neopost technology being highlighted at NPF includes the recently launched AS series of address printing systems. Designed to add functionality to the workplace while reducing postal expenses, the AS printing systems use high-speed ink jet printing to provide superior image quality for addresses and barcodes by printing directly onto envelopes and mail pieces

Committed to meeting the needs of every size organization, from the smallest of mailrooms to comprehensive mail centers, these new Neopost products will complement existing lines of quality mailing solutions, while offering even greater flexibility to their customers.

About Neopost

Neopost is a leading provider of mail, folding/inserting and mail accounting solutions, with products sold in the 5 largest global markets. Over Neopost's 80 year history, the company has

produced many significant product breakthroughs, including everything from the first electronic postage meter, to the first folder/inserters with automated setting adjustments, to its flagship digital ink jet mailing systems. Neopost's innovative products and services all have one thing in common: they bring simplicity and efficiency to the complete mailing process in order to make businesses run more effectively.
