**Neopost Will Feature Solutions for Mailing and Logistics  
at Xplor 2003 Conference and Exhibition**

*Visit Booth #517*

Neopost, the worldwide provider of mailing, addressing, document handling and logistics systems, will feature an array of mailing solutions at Xplor 2003 Conference & Exhibition, at the Georgia World Congress Center, in Atlanta, GA, on October 26-29, 2003. Neopost offers mailing solutions for every size organization, from small businesses with mailrooms to medium-sized and large companies that utilize comprehensive mail centers.

For small businesses, Neopost offers its compact digital IJ35 and IJ45 mailing systems with a unique Autofeed option, as well as the new SI30 desktop office folder/insertor with its simple user interface. Mailroom solutions include the IJ85 featuring a wide-feed platform and automatic thickness adjustment for envelopes up to 5/8" thick. With their advanced features, these mailing machines serve as intelligent, in-motion mail processing systems that broaden mailroom operations.

Neopost will also demonstrate a range of products that are ideally suited for larger mail centers. These will include: Neopost's new Mail Accounting product line, a complete suite of postal accounting products that track and report postal expenditures; and NeoTrak, the company's parcel receiving management system. Neopost also supports the United States Postal Service® (USPS) program PostageNow™, the secure, fast, and cost-effective way to pay for postage refills electronically using Automated Clearing House (ACH) payments through their postage meters.

## **About Neopost**

Neopost, is a leading provider of mail, folding/inserting and mail accounting solutions, with products sold in the 5 largest global markets. Over Neopost's 70 year history, the company has produced many significant product breakthroughs, including everything from the first electronic postage meter, to the first folder/inserters with automated setting adjustments, to its flagship digital ink jet mailing systems. Neopost's innovative products and services all have one thing in common: they bring simplicity and efficiency to the complete mailing process in order to make businesses run more effectively.
